

Harold Miller

Artist Statement

In my youth with a background in chemistry, I had the pleasure of working in Medical Research with the great scientist Dr. Casimir Funk, the first to discover, isolate and coin the word "Vitamin" Vita for Life and Amin for Amino Acid.

Published together 1964: FUNK ,TOMASHEFSKY, AND MILLER on vitamin research and the prevention of cancer through nutrition... but my heart was in the Arts so I started studying Shakespeare and the rest is history.

I received my Actor's Equity card in 1968 working with Joe Papp and I continued on to Direct and also to Paint, write Songs, Poetry and Compose

Life has been wonderful to me and my Family...being at Westbeth has given me the opportunity to do my Artistic Discipline....

Since 2005 to present, I have traveled the world: China and India many times, Europe: Paris France,Germany, England, Ireland, Holland, Japan,Switzerland, etc.doing my craft

The one thing I have learned from my experiences is that all peoples have their dreams but only few follow themso follow your dreams don't give up, love all people, be your Brother's keeper and live in the moment!!!
